

Lecturer's name:		Date:				
Course: ELA 7		Duration:				
Unit:		TEKS:				
	• 7.12f	7.12a	• 7.12b	7.12c	7.12d	7.12.e
Lesson objectives:	By the end of the lesson, students will be able to synthesize information from a variety of texts. Students will use this information to write their informational text.	By the end of the lesson, students will be able to generate student-selected and teacher-guided questions for formal and informal inquiry. Students will use this information to generate a list of questions they want to answer through writing an informational text.	By the end of the lesson, students will be able to develop and revise a plan for researching the answer to their research question. Students will use this information to create a research plan for their informational text	By the end of the lesson, students will be able to refine the major research question, if necessary, guided by the answers to a secondary set of questions. Students will use this information to revise their major research question.	By the end of the lesson, students will be able to identify and gather relevant information from a variety of sources. Students will use this information to identify and gather relevant sources for their informational text.	By the end of the lesson, students will be able to differentiate between primary and secondary sources. Students will use this information to create a list of primary and secondary sources for their informational text.
Essential Questions:	How do you synthesize information from a variety of texts?	Why is it important to generate a list of research questions when writing an informational text?	How do authors of informational texts perform research?	How do authors of informational texts turn research questions into a thesis?	How do authors of informational texts gather sources for their informational texts?	What is the difference between primary and secondary sources?

		Students should come up with at least five questions.				
Independent Practice/ Homework	Independent Practice/ Homework Students will complete their essays.	Independent Practice/ Homework For homework, students will finish developing their list of research questions.	Independent Practice/ Homework Students will complete their research plan.	Independent Practice/ Homework Students will revise their research questions.	Independent Practice/ Homework Students will continue to look for sources for their informational text.	Independent Practice/ Homework Students will finish their list of primary and secondary sources for their informational text.
Lesson Close What is the answer to the essential question, and why does it matter to me in terms of: Educational? Social? Cultural? Financial? Health? Vocational? Spiritual?	Social Our identities are influenced by so many different aspects from the media we consume to the activities we participate in. However, not many people focus on the role that social circles play in our identity. What role do you think that social circles play in our identities? Cultural Our identities do more than tell people who we are. They can be a source of strength especially during times of Pride or festivals. Many authors write informative texts about matters that are close to their heart-including texts that are about their identity. Even if you are not an author of informational texts, you can still draw strength from your cultural identity. How can you draw strength from your cultural identity? Social All of us go through life with different identities at different times- you might identify as a jock or nerd or	Spiritual Spirituality serves many purposes in our lives-it gives us comfort when times are difficult and can provide us with wisdom. What is wisdom? Financial Financial management is important for everybody to learn. Luckily, there are however a wide variety of tools available to help you manage your money. Where do you think you can find these tools? Why should you use tools to help you instead of trying to do it on your own? Spirituality Being wise is not something you are born with. Wisdom, just like	Vocational People take pride in all sorts of things-from their cultural heritage to their accomplishments. However, one little discussed aspect of pride is vocational pride. What is vocational pride? Spiritual How can your well being be bolstered by your spirituality? Vocational Being dedicated at work is important after all not working hard can get you in trouble. However, while it is important to be dedicated to your job at work it is possible to be over dedicated. Being over dedicated to your job can cause problems with your health, can add to your stress	Cultural Our cultural backgrounds provide us with a variety of benefits-including a sense of community. What is community? Spiritual Many authors of informative texts focus on writing about spiritual matters to educate members of their own faith and to educate people who do not share the same beliefs as them. Even if you do not write informative texts about spiritual matters, you can still use your spirituality to bolster your own well being How can your well being be bolstered by your spirituality	Health There are many things in life that it is important to be assertive about-injustice, mistreatment, bad food. But what about your health? What does it mean to be assertive about your health? Financial When most people think of financial skills they might think about saving money or tracking spending rather than how to make your finances adaptable to different situations. What are important financial skills to help you adapt to any situation? Vocational	Educational In school, you will be exposed to information that appears to be harmful but isn't. However, you will still need to keep an open mind about what you are learning as learning about a topic you disagree with might actually change your perspective. Knowing the importance of keeping an open mind in school, What are some ways you can be open minded in school? Financial Many of the charities and social programs found around the world struggle to operate because people are reluctant to use their money for good. Think about the causes you support- how can you persuade people to use their money for good? Vocational A strong work drive is important in all career fields as it motivates us to do our work, to be good employees, and can

	an artist. Thankfully your social identity can be changed. How can you change your social identity? How can you help others?	any other attribute, has to be developed over time through undertaking certain actions and putting in effort. Think about wisdom. As you grow up you are exposed to a wide variety of experiences each one of these helps develop your wisdom. If you are spiritual, as you grow you might grow in your spirituality. How can you use your developing spirituality to develop your wisdom?	levels and can damage your interpersonal relationships. Consequently, it is important to make sure that while you are dedicated to your job you are not too dedicated. What can you do to make sure you aren't over dedicated at work? Spirituality Your spirituality can be used to help yourself in many ways-including building up your self confidence. We all face occasional challenges to our self confidence. When you face a challenge to your self confidence, how can you use your spirituality to help maintain or even build up your self confidence?	Vocational Being dedicated at work is important- after all, not working hard can get you in trouble. However, while it is important to be dedicated to doing a good job at work, it is possible to be over dedicated. Being over dedicated to your job can cause problems with your health, can add to your stress levels, and can damage your interpersonal relationships. Consequently, it is important to make sure that while you are dedicated to your job you are not too dedicated. What can you do to make sure you aren't over dedicated at work?	Although adaptability is an important skill to learn, especially in the workplace, it is important that your adaptability doesn't come at the expense of your other vocational skills, such as workplace discipline. How can you balance adaptability with discipline?	play a vital role in climbing up the job ladder. If you think that you don't have a good work drive, that's okay-they can be developed. How can you develop a vocational drive?
