Lesson Close What is the answer to the essential question, and why does it matter to me in terms of: Educational? Social? Cultural?	Education School can often be boring, especially if you are learning things you are not interested in. However, things you might find boring, you might learn about a topic that inspires you to pursue a career. By learning about political repression, you might become interested in international relations or politics, two fields you may not have previously considered. You should pay in school because you never know what might inspire you to pick a career. Health What does it mean to be inspired at school?	Financial One of the less common uses of informational texts are position and research papers created by the government. In fact, many papers are prepared to help inform viewers on the positions of politicians and hope that their campaigns will receive donations. Regardless, politicians around the world have to run on money that is	Social Our world is made up of people from a very wide variety of backgrounds including some that you may not be readily familiar with. Why do you think it's important to be understanding of other people from different backgrounds? Financial As you grow older and begin looking towards joining the workforce, it is important to start researching the	Health Reading and writing informative texts can give people a new lease on life and can be a healthy way of dealing with difficult subjects. However, reading and writing informative texts can also help you be assertive about your health. What are some other ways you can be assertive when it comes to taking	Spiritual In our daily lives, we face all sorts of threats and challenges. Sometimes they can make us feel overwhelmed and feel like there is no hope for the future. In situations like this, what are some steps you can take to maintain hope for the future? Vocational After high school, you have a variety of options available to you - you can	Health As we go through life we will face occasions requiring us to make a sacrifice-whether its time, money, or even health. Although you are in middle school, that doesn't mean you can't make sacrifices to your health. What does it mean to make sacrifices when it comes to your health? Health With the advent of modern technology, many people spend less time outdoors than they used to, which in turn is impacting the health of ourselves and the people around us. What are

Financial? Health? Vocational? Spiritual?	While you are young, you might have other people caring for you and helping you take care of your needs. As you grow older however, the burden of taking care of your needs will shift to you and you will need to learn to take care of your needs and learn how to take care of your needs. What do you think are some healthy self care habits? Why is it important to take care of yourself? Vocational Just like any other trade, writing informational texts requires a certain degree of dedication. However as students, the dedication necessary to be successful is a lot less (and has far less severe consequences). However, this doesn't mean you shouldn't be dedicated to being a student. What do you think it means to be dedicated to work?	donated by people who believe in their cause. What sort of candidates do you believe in and how can you be financially helpful towards their campaigns? Educational Sometimes in school you may come across content that you don't fully understand. You might be too embarrassed to ask your teacher for help. Don't be! Even authors ask their colleagues for help. There are a multitude of ways to ask your teacher for help, you can raise your hand in class or you can approach them afterwards and tell them you are having trouble understanding. What do you think are some other ways you can ask for help? Spiritual Sometimes you might find yourself agitated by people or other things around you. You might find yourself wanting to yell or lash out	various market forces that influence your possible career choices. What seems like a small factor now, can turn into a large factor by the time you enter the workforce. What are market forces and how might they influence your career choices? Vocational Every job is important and presents people with an opportunity to take pride in their work. What do you think it means to take pride in your work?	control of your own health? Vocational- Sometimes school can be boring. You might find yourself working in a job that seems boring. Despite this, a boring job can still be fulfilling, just as a boring class can be fulfilling. What steps can you take to find fulfillment at school and work? Health When you feel unwell in school or at home, you can tell the school nurse or your parents and they can give you medicine. As you grow older however, you will need to rely on yourself to take charge of your own well-being. Even though you are young, what are some steps you can take now, to take charge of your own well-being even if you do not feel sick?	enter the workforce, you can join the military or you can go to higher education. In order to figure out the best course of action for you, think about what it is you would be interested in doing as a career and then start looking into what path you will have to take once you have finished High School. Educational In school, there is often not enough time to go into further detail on a topic, so you might have to pursue further details on your own. If there is a particular topic you would like to learn more details about, ask your teacher for resources and continue your studies on your own. What are some topics you might want to learn about on your own?	some ways you can stay active and get exercise during school? Social Aspirations are not exclusive to school! You can aspire to do things in your social circle as well. You can aspire to have more friends, you can aspire to be the president of a club or the captain of a sports team. What do you aspire to be when it comes to social interactions?
