Course: English I		Duration:			
Unit: 2		TEKS:			
	• ELA.K12.EE.2.1	• ELA.K12.EE.3.1:	• ELA.K12.EE.4.1:	• ELA.K12.EE.5.1:	• ELA.K12.EE.6.1:
Lesson objectives:	By the end of the lesson, students will be able to read and comprehend grade-level complex texts proficiently. Students will use this information to read and comprehend a short story.	By the end of the lesson, students will be able to make inferences to support comprehension. Students will use this information to debate what the central message of a short story is.	By the end of the lesson, students will be able to use active listening skills and other collaborative techniques to engage in a literary discussion. Students will use this information to discuss a short story.	By the end of the lesson, students will be able to use the accepted rules governing a specific format to create quality work. Students will use this information to debate.	By the end of the lesson, students will be able to use appropriate voice and tone when speaking or writing. Students will use this information to debate the meaning of a short story.
Essential Questions:	Essential Questions: Why is reading and comprehending a short story important?	Essential Questions: How do you make inferences? How do you use inferences to support an argument?	Essential Questions: What is active listening? What are some collaborative techniques?	Essential Questions: What are the rules and format of a debate?	Essential Questions: How do you debate?
LYS Methodology Be (Character/Values/Principles) Know (What resources are available to the student/ How can they use them) - Do (Execute with Excellence) -	Be (Character/Values/Principles) - What does it mean to be educationally tolerant? Instructional Input - Asynchronous AS: Anticipatory Set (Introduction) Students will write a few sentences, up to a paragraph, on why they think reading is important. Students will upload their answers to the LMS. M: Modeling (I do) Students will watch a video on why reading is important. GP: Guided Practice (We do) As a class, students will read The Most Dangerous Game. After reading the short story, ask them why they think they read the story. After a few students share their answers, have each student write a one page reflection on why they think it is important to read short stories in school.	Instructional Input - Asynchronous AS: Anticipatory Set (Introduction) Students will write a few sentences, up to a paragraph, on why they think reading is important. Students will upload their answers to the LMS. M: Modeling (I do) Students will watch a video on why reading is important. What is the answer to the essential question, and why does it matter to me in terms of: Educational? Social? Cultural? Financial? Health? Vocational? Spiritual?	What is the answer to the essential question, and why does it matter to me in terms of: Educational As a student, you might come across information that you may not be open to. However, it is important to keep an open mind about these things as it may make you a better person. What are some ways that you can make sure that you're tolerant when coming across new ideas in school? Spiritual Spiritual chanting is said to improve listening skills, heightened energy and more sensitivity towards others- all qualities that are important in being a good student (and person). They can be as simple as a single word or as complex as a mantra. What is a spiritual chant that you can use to improve yourself? Financial As you get older and enter the workforce, you will need to create a budget and learn how to stick with it. What are some ways you can learn how to stick to your budget?	What is the answer to the essential question, and why does it matter to me in terms of: Financial Sometimes you need to financially collaborate with others. If you were to start a business, you might have to find an investor who would be willing to give you money in exchange for some of your profits. Due to this, as you strike out into the business world, you will need to know how to be financially collaborative. What are some ways that you can be financially collaborative. Social Although you are in middle school, you are responsible for setting boundaries with other people. What are some boundaries you can set with others? Vocational	What is the answer to the essential question, and why does it matter to me in terms of: Health There are multiple factors and influences on our overall well being- mental, emotional, physical and others. Regulating these factors requires a degree of self care. Why do you think it is important to practice self care? What do you think happens if you don't take care of yourself? Cultural Cultural enterprise involves the performance of certain activity prevalent in artistic and cultural content, usually relating to the culture of a city, state, or nationality. It is often a way for people of one culture to share information about their culture with others in an informational or	What is the answer to the essential question, and why does it matter to me in terms of: Financial Financial generosity helps people from all walks of life. Why do you think it is important to be financially generous? What are some ways you can be financially generous? Vocational Many celebrities and athletes go into their fields after years of refining entry level skills into world class skills (such as learning how to kick a ball versus how to kick a ball that is hard to block). Think about what you want to do with your life - what do you think are the entry level positions you need to take in your field before you can rise to your dream job? Educational	What is the answer to the essential question, and why does it matter to me in terms of: Social Humans are social creatures. Part of being a social creature is being understanding of people who are different from you. What does it mean to be understanding of others? Spiritual A vice is a moral failing or a bad habit- and everyone has one. For some people, a vice might be as simple as eating too many sweets, but for others, vices might be more serious and can lead to negative effects on your health. Think about your life, what are your vices? Once you know what your vices are, what steps can you take to make sure they don't get out of control? Vocational Just as you have to be in class with people you may not necessarily like, when you enter the workforce you might have coworkers that you don't like. However, depending on your job, cooperating with your coworkers can mean completing a project or getting fired. Knowing that the stakes are higher in the workplace and you may have to work with people you don't like, how can you cooperate with people you don't like?

		In life, you will encounter moments where you don't feel motivated. However, in the workforce a lack of motivation can have major consequences, including losing your job! What are some ways you can remain driven at work?	educational setting. What are some small ways you can create cultural enterprises? Spiritual Most people rely on a variety of methods to guide them through life, including their spirituality. Before you can set out on this journey you need to set spiritual aspirations. What do you think are some spiritual aspirations you can set?	The purpose of school is to help you develop the skills you need for the workplace, including establishing core competency. What are some things you can do to increase your competency in school?
