

Lecturer's name:		Date:			
Course: ELA 7		Duration:			
Unit: 2		TEKS:			
	E1.4H:	E1.4I	E1.5A	E1.5B	E1.5C
Lesson objectives:	By the end of the lesson, students will be able to synthesize information from two texts to create new understanding. Students will use this information to synthesize the information from two texts into a short response.	By the end of the lesson, students will be able to monitor comprehension and make adjustments when understanding breaks down. Students will use this information to create a presentation for their fellow students on what to do when they don't understand what they are reading.	By the end of the lesson, students will be able to describe personal connections to a variety of sources, including self-selected texts. Students will use this information to write a one page response to a poem and short story of their choice.	By the end of the lesson, students will be able to write responses that demonstrate understanding of texts, including comparing sources within and across genres. Students will use this information to write a one page response to how a short story or poem of their choosing relates to another story they are familiar with.	By the end of the lesson, students will be able to use text evidence to support an appropriate response. Students will use this information to answer comprehension questions related to "The Most Dangerous Game".
Essential Questions:	What does it mean to synthesize an informational text?	How can you monitor your understanding as you read? If you don't understand what you're reading, what are some techniques you can employ?	How can you draw connections between a story or poem and yourself?	How can you draw connections between the text you're reading and other texts you're familiar with?	How can you use text to support an argument?

LYS Methodology Be (Character/Values/Principles) Know (What resources are available to the student / How can they use them) - Do (Execute with Excellence) -	Be: How can you find inspiration for your hobbies in school? Know: How can you build up the self esteem of the people in your social circle? Do: What steps can you use your spirituality to develop your purpose?	LYS Methodology Be (Character/Values/Principles) - What does it mean to be financially collaborative? Know (What resources are available to the student/ How can they use them) - How can you develop a community from the beginning? Do (Execute with Excellence) - What should you do when you work with someone who doesn't have integrity?	Be: What sort of things should be done in moderation to promote good health? Know: How can you attempt to rebuild someone's trust after breaking it? Do: How can you draw from the world around you to improve your wisdom?	Be: How can you use your spirituality to be resilient? Know: What are some uncommon sources of culture in your community? Do: What are some small things you can do throughout the day to support your well being?	Be: How can you use your spirituality to remain grounded? Know: What are some ways to get easy exercise? Do: What can you do to adjust your budget?

Instructional Input - Asynchronous AS: Anticipatory Set (Introduction) Students will write a few sentences, up to a paragraph on how they think informational texts can be synthesized to create a new understanding. Students will upload their answers to the LMS. M: Modeling (I do) Students will watch a video on how to synthesize information. GP: Guided Practice (We do) After watching the video, as a class, students will read the two articles on bullying. After reading each article, ask students how they might synthesize the information in the articles. After reading both articles, ask students how they might synthesize the two articles to create a new understanding on what bullying is and what bullying is not. GP: Guided Practice (We do) Have students find two articles that discuss the same topic. Have students	Instructional Input - Asynchronous AS: Anticipatory Set (Introduction) Students will write a few sentences, up to a paragraph on how they think informational texts can be synthesized to create a new understanding. 	same topic. Have students read each of the two articles and then synthesize the information in the Articles to write a one page response explaining how two articles discuss the same topic.	instruct their peers on how their chosen technique can be used to enhance their comprehension of a text.			
Independent Practice / Homework	Independent Practice/ Homework Students will complete their write up.	Students will complete their presentation.	Students will complete their response.	Students will complete their response.	Students will complete their response.

Lesson Close What is the answer to the essential question, and why does it matter to me in terms of: Educational? Social? Cultural? Financial? Health? Vocational? Spiritual?	Education People can find inspiration through all sorts of sources. For example, if you are interested in art, you might be inspired to learn more about a culture's artwork after learning about it in school. Think about your hobbies and interests- how can you find inspiration for your hobbies in school? Social Being a friend means supporting your friends when they are stuck in a rut or when their self-esteem suffers. When the people in your social circle are suffering from low self esteem, what can you do to help build up their self esteem? Spiritual Some people pick a vocation based on interests or skill sets, while others might feel a spiritual purpose for pursuing a certain job or vocation. How can you use your spirituality to help you figure out your purpose?	Financial Many communities rely on collaboration from the participants in order to succeed. In the modern era, collaboration comes in many forms- teamwork on the playing field, doing chores at home, or even working with a classmate to complete a project. But what about financial collaboration? What do you think it means to be financially collaborative? Cultural Communities are made up of all sorts of people. These communities often revolve around a set identity or commonality. How can you make a community of your own? How can you create a community from scratch?. Vocational As you go through life, you will work with a wide variety of people-you might like some of them or you	Health Many people call for moderation in all things, from undergoing social change to managing your health. Whether or not all things should be done in moderation is a topic of debate for many people (especially when it comes to social issues). One area where doing things in moderation is important is your health. How does doing things in moderation apply to your health? What sort of things should be done in moderation to promote good health? Social Trust is a fickle thing, hard to gain and easy to lose. As you go through life, you might break somebody's trust-whether accidentally or on purpose. Breaking someone's trust can have serious consequences including ending personal relationships and even job loss. How can you attempt to rebuild someone's trust after breaking it?	Spiritual Your life will face its own series of hard times . However, facing hard times doesn't mean you have to fold like a piece of paper. Many people use their spirituality to help them remain resilient during difficult times - through prayer, chants, mantras, or even something as simple as telling yourself "this too shall pass." Think about your own methods of being resilient, how can you use your spirituality to help build your resilience? Cultural Culture comes from all sorts of places - food, art, music, even the clothes we wear. So when you are walking around your local community you can probably see all sorts of different cultures being represented through obvious signs. While it is important to think about the obvious signs of culture, what	Spiritual We all have large expectations in life. You may play a new sport and automatically assume that you will be good at it only to assume that you are not. Or you might sign up for an easy class, not work very hard, and fail a test. Consequently, it is important to remain grounded. What do you think it means to be grounded as a person? How can you use your spirituality to remain grounded? Health When most people think of getting exercise they tend to think of playing a sport or going to the gym. While these are obviously forms of exercise, they often require you to block out chunks of time during your day. Consequently, many people do not get the exercise they need. What are some easy ways you can get some exercise during the day? Financial While making a budget is important, they are not necessarily set in stone. In fact, many oil companies build a little bit of breathing room into their budget, just in case they happen to find more oil than anticipated . Your budget should be a flexible document that adjusts itself to your financial needs. Knowing that your budget is adjustable and may vary from month to month, what are some simple steps you can take to adjust your budget when appropriate?
---	---	--	---	--	--

		might like none of them. One of the more common causes of strife between coworkers is a perceived lack of integrity, or having a reputation for dishonesty. In your workplace, you might have coworkers who appear to lack integrity. How should you treat your coworkers if they appear to lack integrity?	Spiritual Wisdom comes from multiple sources including personal experiences, spiritual teachings and beliefs, and conversations with friends and family. Nobody is born with wisdom, it comes from a lifetime of experiences. What are some things you can do to improve your own wisdom? How can you draw from the world around you to improve your wisdom?	about the less obvious cultural sources? What are some of the less noticeable ways people reveal their culture to the local community and how can you bring those ways into the spotlight? Health Monitoring your well being is an intricate activity that consists of tracking multiple components that weave together. However, despite its overall complexity, you can still take small steps throughout the day to support your well being. What small steps can you start taking today to make changes to your health?
