

Lecturer's name:		Date:			
Course: ELA 7		Duration:			
Unit: 2		TEKS:			
	E1.1A.	- E1.1B: processes.	E1.1C: Give a presentation using informal, formal, and technical language effectively to meet the needs of audience, purpose, and occasion, employing eye contact, speaking rate such as pauses for effect, volume, enunciation, purposeful gestures, and conventions of language to communicate ideas	- E1.1D.	E1.2:

			effectively.		
Lesson objectives:	By the end of the lesson, students will be able to use active listening skills and other collaborative techniques to engage in a literary discussion. Students will use this information to discuss a short story.	By the end of the lesson, students will be able to Follow and give complex oral instructions to perform specific tasks, answer questions, or solve problems. Students will use this information to create an oral presentation designed to instruct others.	By the end of the lesson, students will be able to Give a presentation using informal, formal, and technical language effectively to meet the needs of audience, purpose, and occasion, employing eye contact, speaking rate such as pauses for effect, volume, enunciation, purposeful gestures, and conventions of language to communicate ideas effectively. Students will use this information to give their own TEDTalk.	By the end of the lesson, students will be able to Participate collaboratively, building on the ideas of others, contributing relevant information, developing a plan for consensus building and setting ground rules for decision making Students will use this information to set up and run their own book club.	By the end of the lesson, students will be able to Use print or digital resources such as glossaries or technical dictionaries to clarify and validate understanding of the precise and appropriate meaning of technical or discipline-based vocabulary. Students will use this information to create a technical dictionary for a career field they are interested in.
Essential Questions:	Essential Questions: What is active listening? What are some collaborative techniques?	Essential Questions: How can you use oration to instruct others?	What is a TEDTalk? What sort of information can be gleaned from them?	What sort of components go into running a book club?	Essential Questions: What are technical and discipline-based dictionaries ?
LYS Methodology Be (Character/Values/Principles) - Know (What	Be: How does being responsible relate to the workplace? Know: If you struggle to say no to things that endanger your health what are some ways you can develop that capability?	Be: How can you find inspiration for your hobbies in school? Know: How can you build up the self esteem of the people in your social circle?	Be: How can you avoid being too thrifty? Know: What makes behavior ethical? Do: What are some steps you can take at school	Be: What does it mean to be cooperative at work? Know: What does your social circle have to do with vocations?	Be: What do you think workplace discipline means? Know: What are some ways you can use your spirituality to assist the well being of people around you? Do: How can you develop trust with someone

resources are available to the student / How can they use them) - Do (Execute with Excellence) -	Do: How can you use your spirituality to write your own narrative?	Do: What steps can you use your spirituality to develop your purpose?	to practice self-care?	Do: How can you use your spirituality to give your life meaning?	you don't know?

Instructional Input - Asynchronous AS: Anticipatory Set (Introduction) Students will write a few sentences, up to a paragraph, on what they think active listening means. Students will upload their answers to the LMS. M: Modeling (I do) Students will watch a video on how to engage in active listening. GP: Guided Practice (We do) As a class, students will read "The Most Dangerous Game" by Richard Connell. As they read parts of the story, ask them what the story is about. Then, using details from the story, have students try and infer what the author is trying to say about human nature. Encourage the students to practice active listening to listen to what their peers are saying and have them respond accordingly.	Instructional Input - Asynchronous AS: Anticipatory Set (Introduction) Students will write a few sentences, up to a paragraph, on what they think active listening means. Students will upload their answers to the LMS. M: Modeling (I do) Students will watch a video on how to engage in active listening. GP: Guided Practice (We do) As a class, students will read "The Most Dangerous Game" by Richard Connell. As they read parts of the story, ask them what the story is about. Then, using details from the story, have students try and infer what the author is trying to say about human nature. Encourage the students to practice active listening to listen to what their peers are saying and have them respond accordingly.	AS: Students will use the designated form of technology available to them to discuss/communicate for up to 10 minutes with a partner how oration can be used to instruct others. M: Students will watch a series of videos on how to give a TEDTalk. GP: Ask students what is one thing they can teach somebody else to do-it can be a skill or an ability or even a hobby. Inform students that they are to create their own TEDTalk designed to teach the audience how to do something.	AS: Students will write a few sentences, up to a paragraph on what topics they feel passionate about. Students will upload their answers to the LMS. M: Students will watch a video on how to give a TEDTalk. GP: Ask students to share the passions they wrote down during the warm up. When possible, ask students to elaborate on their answer. Then ask students to think about how they can turn their passions into a TEDTalk. Inform students that they are to create a TEDTalk about a subject they are passionate about and want others to be informed about.	AS: Students will use the designated form of technology available to them to discuss/communicate for up to 10 minutes with a partner about how to organize and run a book club. M: Students will watch a video on tips for running a book club. GP: Ask students what components go into organizing and running a book club. Split students into groups of four and have them develop a book club. Have each group come up with a list of rules, including: how books are picked, how often the club meets, how long people can speak for, who will take notes and how decisions impacting the group will be made and voted on. Once students have devised the rules, have them create a word document with the rules.	Instructional Input - Asynchronous AS: Anticipatory Set (Introduction) Students will write a few sentences, up to a paragraph, on what they think technical or discipline-based dictionaries are used for. Students will upload their answers to the LMS. M: Modeling (I do) Students will watch a video on the different types of dictionaries. After the video, ask students what sort of careers they are interested in. Then ask students what sort of words might appear in a technical or discipline based dictionary for their chosen profession. Ask them how a discipline-based dictionary might look different than a normal dictionary. Have students look up various technical or discipline based dictionaries used by careers they are interested in. GP: Guided Practice (We do) Ask students what sort of technical or discipline based dictionary might exist for a high school English class. Inform students that they are going to create their own technical or discipline-based dictionary for English I.

Lesson Close What is the answer to the essential question, and why does it matter to me in terms of: Educational? Social? Cultural? Financial? Health? Vocational? Spiritual?	Vocational The use of responsibility varies from field to field and subject to subject. How do you think being responsible relates to the workplace? Health While you are young, your parents have control over most of your major medical decisions, but that doesn't mean decisions about your health are outside of your control. What are some things you can say "no" to if they endanger your health. If you struggle to say no to things that endanger your health what are some ways you can develop that capability? Spiritual One of the great things about writing creatively, is your ability to control the narrative of your own story. Just as authors might seek to control the narrative of a story, you too can write your own narrative-with you as the subject. As we write our own narrative, we rely on a wide variety of sources, from our hobbies and interests to our spirituality. Think about your own spirituality, how can you use your spirituality to write your own narrative?	Education People can find inspiration through all sorts of sources. For example, if you are interested in art, you might be inspired to learn more about a culture's artwork after learning about it in school. Think about your hobbies and interests- how can you find inspiration for your hobbies in school? Social Being a friend means supporting your friends when they are stuck in a rut or when their self-esteem suffers. When the people in your social circle are suffering from low self esteem, what can you do to help build up their self esteem? Spiritual Some people pick a vocation based on interests or skill sets, while others might feel a spiritual purpose for pursuing a certain job or vocation. How	Financial. You should always want to be thrifty and save money. However, it is too possible to be too thrifty, especially if the money you could be spending goes directly into the hands of people who are relying on it in order to survive. How can you avoid being too thrifty? Vocational We live in a world with as many codes of rights and behaviors as there are cultures. However one thing that is nearly universal, are standards of acceptable behavior, also known as ethics. What makes behavior ethical? What are some examples of ethical vs unethical behavior? Health We face difficult citations in our lives all the time and school is certainly no exception. In the face of difficult times it is important to practice self care. What are some steps you can take	Vocational Just as you too need to be able to cooperate with your bosses and coworkers. What do you think it means to be cooperative at work? Do you think there is a difference between being cooperative and mindless obedience? Social Having a social circle has many emotional, mental, and physical benefits. It can also benefit your aspirations. Someone in your social circle may have a family member who can help you get a job in your chosen field or has a connection at a University you wish to attend. How else can your social circle help you with your professional aspirations? How can your life help your friends with their aspirations? Spiritual Many people spend their entire lives	Instructional Input - Asynchronous AS: Anticipatory Set (Introduction) Students will write a few sentences, up to a paragraph, on Students will upload their answers to the LMS. M: Modeling (I do) GP: Guided Practice (We do)
---	---	---	--	---	---

		can you use your spirituality to help you figure out your purpose?	at school to practice self care?	searching for meaning and some people try to find their meaning through various aspects of their lives - job, friends, family, etc. How can you use your spirituality to give your life meaning?
